COLOR PALETTE

Fingerpaint Group

The new color palette preserves the essence of each solution's original brand colors while seamlessly blending them into a harmonious system. Thoughtfully refined for consistency and accessibility, the palette meets AA-level ADA compliance against our brand black and brand white, ensuring both inclusivity and strong visual identity.

COLOR PALETTE

Fingerpaint Medical

Mix and match colors from the primary and secondary palettes, using the tertiary palette for accents. Use black text on light backgrounds and white on dark. A white "T" means white text on a color or the color on white, while a black "T" means the reverse. Text should generally be black or white, with colored text as accents. Keep plenty of white space—let white dominate and use colors for visual rhythm.
